# PARTIAL INDEX OF CUMBERLAND COUNTY CHURCH and CEMETERY RESOURCES

January 17, 2011

This Resource Listing contains the names of the publications that are indexed in the Cumberland County Church and Cemetery Index and the reference number for these listings. See the column under the heading **VOLUME** to determine if a particular church or cemetery has been indexed. . ( X indicates that the church or cemetery is indexed and included in Volume 1 - 14. S\_ indicates that the church or cemetery is indexed in a supplemental Volume), CD indicates that this publication is indexed and included on the CD version of the index If the VOLUME column is blank for a particular church, then that church has not been indexed. If an \* appears in this column, that publication is available in PDF format on CD. An + in the Volume column indicates that the publication is scanned but is not available to the public. More microfilm data and new document additions will follow in good order. The volumes are nothing more than an index of names and/or dates of individuals listed in the resource documents indicated by the entries in the volume columns of the reference and alphabetical lists. It is not intended to contain historical data. To use it:

- 1) Look up the individuals (\*)name. Use the date to help identify the individual sought. The "Type" code identifies the kind of information contained in this particular reference.

## **Type code definitions are:**

B	Birth or Baptism (not all baptisms are infant)
C	Communicant/Joined church/Member/Visited/Removed or Expelled
M	Marriage
O	Obit/Death/Cemetery Record
P	Parent
R	Relative/Son/Daughter/Brother/Sister/Uncle, etc.
S	Spouse
T	Teste/Witness/Sponsor
X	Author/Pastor/Council/Other Miscellaneous

- 2) Note the Index Reference number and page number. Then refer to the Reference list to obtain the identification "Name & Call" of the referenced document.
- 3) Retrieve the document and the information.

(\*) In preparing this index many different spellings of the same name were noted. These were the result of the widespread use of phonetic spelling of surnames by persons with limited education; by deliberate changes made by family members and by contemporary interpretations of faded, poorly written or barely legible records or eroded tombstones (including the efforts of the authors of this document). Here are a few samples of

name variations that should be noted: (f's and s's are frequently interchangeable in the same name)
